“Thank you sir. The DPN notes were very **comprehensive and useful**. I used it to supplement my newspaper knowledge. Having invested 7-9 years of my life in making myself into a physicist, I found it very struggling to cope up with small but many facts involved in general studies part. But sir simplifies this arduous job by summing it all up in one go with his initiatives like dpn,ppp,dps,etc..... To be honest, I have no interest in researching on general studies part by myself by surfing through internet. It's too much of work with returns of not even clearing preliminary examination. But sir does all that in program, so my job is now only to read ready made notes by an preliminary expert.

Santosh Sir's courses be it test series, concept session, essay sessions, strategies sessions and what not....they are just one stop solution for all. The best among all is DPS which not only cover every piece of syllabus but also on individual level, we start developing the nuances of answer writing. Always needed a Guru, who guide us through the journey and with his experience, show right path to us.

Being an Arjuna prime student has been one of the best decisions I took. As a fresher, I was given proper mentorship, and by proper mentorship I mean valuable guidance and not mere motivation. Tests we give are much better than other options available in the market & even we are being taught CSAT which isn't included in the programme brochure. Overall, it's a much better choice than spending lakhs in offline coaching & being treated as herd of sheeps thereafter.

So, here's the review : If by sheer luck you are reading my review of Santosh Sir's course, (it applies to all the courses sir is taking) including lakshya , mains master notes etc, TRUST me and join him blindly.. Why should you trust me ? Because I have invested 5 precious years of my youth in investing money in all the big so called best Institutes and I don't want you to suffer. Even though I should not demean them and they did teach me something, none of them cared to listen to my problems (as a student you may gel with me here).. You are just a clog in the wheel, a data for them.. Have faith in your judgement and thank god because you will crack this exam if you follow DPN, DPS, Mains Master Notes and work hard as you intend to do after investing lakhs in such coachings.. I wish I had access to these things when i was alone and desperate for some guidance. Trust me I have invested more than 10 lakh in coaching and answer writing alone. This guy wakes up at 4 am and works hard in providing you with all the material you need. I am not even exaggerating here, go sit in a library in rajendra nagar and you will see people broke due to the system. NOBODY cares after you have paid the amount. I must also add that other than the big institutions many people are running the so called one to one mentorship on telegram, one is very famous but its just a group of people like me who have exhausted their chance and make gullible people pay them for nonsense mentoring and guess what ? they earn in lakhs monthly... Plz trust for once in life, many good hard working people are also there who have a purpose in life and are ethical, Santosh Sir is one of them and he is not even charging 10% of what others are charging and I have no idea how he is managing with that. Remember Even the Alchemist trusted the Universe, when will you Trust ??

The Mains Master Notes and the mentorship classes are the best definitely. Each and every topic has been covered holistically. Even the language of the content and the keywords used are so good that there is no need for any other material to build a base apart from these. The notes are comprehensive, precise and exam-oriented. The mentorship classes are really helpful with Santosh sir coming up with templates and new ways to answer questions. For a working professional like me, the notes are a must. Definitely best in India as claimed.
