“Thank you, sir. The DPN notes were **very comprehensive and useful**. I used it to supplement my newspaper knowledge. It really helped in dealing with the current affairs portion of the prelim’s exam, since you compile it from so many sources. **Would recommend students to maintain their own digital notes using that source.**

After I didn’t clear first prelims, I **joined your mains master notes which helped me identify key areas for note making.**

Thank you, sir, for your relentless effort in updating these notes. They’re helpful for the aspirants.”

Congratulation Ishita on your Grand Success!

I'm honestly speaking i have heard of people with dedication, strong mindset and everything but Santosh sir the first person i have ever come across in my life with such great personality with dedication, hardwork, passion and mindset as strong as diamond entirely for the welfare of the students. Trust me he could have made lot of money and could have given us sub standard quality material but he never does that, even he works more than an aspirant just to give us sure shot questions. Sir having seen you from past two years, i have been following you even without single doubt in ur guidance. Anyone can blindly trust him without having second thought. Thank U so much sir

Being an Arjuna prime student has been one of the best decisions I took. As a fresher, I was given proper mentorship, and by proper mentorship I mean valuable guidance and not mere motivation. Tests we give are much better than other options available in the market & even we are being taught CSAT which isn't included in the programme brochure. Overall, it's a much better choice than spending lakhs in offline coaching & being treated as herd of sheep thereafter.

Hello Aspirants, If you are struggling in your preparation of Upsc. Don't think too much you can definitely choose the Arjuna prime course of Optimize IAS. In which we get one year complete guidance and mentorship of Santosh sir. Specifically for Prelims preparation Lakshya Test series is the best !!! The standard of questions are good which includes tests from Ncert to Advance level (power booster of your prep) and at last the most important questions which have high probability of coming in UPSC PRE is given

Having invested 7-9 years of my life in making myself into a physicist, I found it very struggling to cope up with small but many facts involved in general studies part. But sir simplifies this arduous job by summing it all up in one go with his initiatives like dpn,ppp,dps,etc..... To be honest, I have no interest in researching on general studies part by myself by surfing through internet. It's too much of work with returns of not even clearing preliminary examination. But sir does all that in program, so my job is now only to read ready made notes by an preliminary expert.

Santosh Sir's courses be it test series, concept session, essay sessions, strategies sessions and what not....they are just one stop solution for all. The best among all is DPS which not only cover every piece of syllabus but also on individual level, we start developing the nuances of answer writing. Always needed a Guru, who guide us through the journey and with his experience, show right path to us.
